Miners Association and Citizens League Elect Their Candidates

Communists Lose Ground and Campaign of Villification is Repudiated by Ratepayers--Voting Indicates Clear Mandate for Policy on Which Election Was Fought--Right Principles Prevailed Over Slander and Abuse of Miners Candidates

Vote Leaves Not Least Vestige of Doubt of Popular Sentiment

The election results in Coleman on Feb. 13 was an overwhelming expression of public opinion on Canadianism vs. Communism. The campaign was waged entirely on this issue as far as Citizens League and Coleman Miners' Association candidates were concerned. No personal reference to an opposition candidate, Communist or Independent, was made. The issue was confined to the vital principle on which the appeal to the electors was made, and it won.

Sweeping the boards by returning Citizens League slates on both council and school boards, by majorities which left not a shadow of margin for dispute, the result exceeded the fondest hopes of those who organized the campaign on behalf of the League.

It indicated that Coleman people in the mass will respond to intelligent appeals for order and sane administration in municipal affairs. The attacks made particularly on Chapman and Harry, two trustees of Coleman Miners' Association, for the council, in a bulletin issued by the Communists, were particularly vicious, and slanderous in nature, yet it was pleasing to note that instead of gaining support for the Communists the vote showed a heavy repudiation of the election compared with that of 1932.

Special significance is also seen in the fact that Independent candidates did not score anywhere near the vote anticipated. Wm. Antroub, a former trustee, sought re-election as an Independent. He had no organization campaigning for him.

Frank Barringham, nominated as an Independent, but whose name also appeared as a candidate on the Communist specimen ballot, was 5th in the election for trustees. In 1931 he was elected, receiving third place on the slate of James W. Allan first.

The analysis of Monday's balloting unmistakably indicates that it was mainly on the distinct issue of Citizens League, combined with Coleman Miners Association, against the Communist controlled faction, that the votes were cast. Personality of candidates was not the dominating factor, though the personality of the Citizens League candidates undoubtedly had considerable influence.

The result was highly gratifying to James M. Allan, re-elected after two years as chairman of the school board, with a clear majority of 148 over the highest vote of the six unsuccessful candidates.

Extravagant promises of the Communists failed to make the impression anticipated. Ratepayers, realizing that such promises could not be fulfilled, and that they were merely bait to catch unsuspecting fish. They make a lesson to the effect that it requires more than flimsy bubbles on which to base an election appeal to the workers.

The result is also a demonstration of what can be effected by arousing public opinion and by co-operative organization. In 1931 the total number of voters for school trustees was 199 of over 1200 eligible to vote. On Monday 1211 votes were cast, and for the council 408.

Citizens League Organization
Prior to election day the executive of the Citizens League completed their plans for getting out the vote. The enthusiasm evident at the meeting, at which all sections of the population were represented, augured well for success, but nothing was left to chance. Car drivers and accompanying workers were assigned their territory, so that immediately the polls were opened at 10 a.m. on Monday morning they commenced bringing a steady stream of voters to the polling station.

Scrutineers were in their places, while the outside workers were keeping car drivers informed of tardy voters. Alex M. Morrison as president of the Citizens League, directed the organization, and was accorded enthusiastic support right up till the last vote was polled. When the results came in late that evening, he expressed his satisfaction by paying tribute to the workers and by stating he considered it a clear-cut demonstration of ratepayers' repudiation of Canadian citizenship and loyalty as

against revolutionary Communism. It emphasized as the vital issue of the campaign, and his warning prior to election that in order to win people must support solidly the Citizens League slate, showed that this policy had been followed.

COMMUNISTS ACTIVE

No less busy were the Communist workers. By means of mimeographed manifestos routinely abusing the Citizens League and Miners candidates, and "dummy" ballots, they made good use of pre-election days to try and win votes. They had a full quota of scrutineers armed with copies of the voters' lists, and freely challenged those whom they considered had not the qualifications to vote. Their supporters turned out in large numbers, but it is significant to note that of the straight Communist candidates, their highest vote polled was 37, as against 167 in the 1931 election, a decrease of 130 votes. Rock Sudworth last year obtained 467 votes. This year Archie Fraser, a straight Communist candidate, obtained 337, the highest of the two Communists, the other being Alice Sudworth with 314.

COUNCIL VOTES

The voting on the council, being more restricted than on the school trustees election, owing to property qualifications, left the highest of the even more adverse vote against the Communist candidates. Walter Blyth making the best run of the three candidates with 92, Danyluk 77 and Holyk 71.

William Borrows, who served from 1931 to 1933, was re-elected on the Citizens League slate with the top vote of 346. W. Chapman and Andrew Harry, Coleman Miners Association obtaining 339 and 307 respectively. This showed consistent solid support of the League slate, as the variation of votes on both slates was very small.

At the close of the poll, A. M. Morrison, as agent of the Citizens League candidates, addressed the returning officer and election officials, and scrutineers of both parties. He stated the election had been fought in a clean manner without any disturbance at the poll; that the poll had been conducted in as fair a manner as possible, and there was nothing to do but wish good luck to the winning candidates, whoever they might be.

Returning officer James Ford then announced that the count would commence at 7.30 p.m., as they had been steadily at work since 10 a.m., and needed something to eat.

About 10 p.m. the first figures were issued announcing the election of the entire Citizens League slate for the school trustees, and about half an hour later the announcement of the return of the League slate for the council sent the enthusiasm of Citizens League supporters "as high as a balloon."

Coleman Election results

For Council:	
Borrows	346 Elected
Chapman	339 Elected
Harry	307 Elected
Blyth	92
Danyluk	77
Holyk	71
For Trustees on School Board:	
Allan	632 Elected
Reid	591 Elected
Evans	591 Elected
Hope	542 Elected
Barringham	504
Chamberlain	465
Fraser	337
Alice Sudworth	258
Holly	140
Spilled ballots for council	23
Spilled ballots for trustees	103

MORE TROUBLE

A writ for \$1015.25 for professional work and services rendered has been issued by the Supreme Court in Calgary against J. Sloan and John Stokluk, as trustees for the Mine Workers Union of Canada. The party claiming the money is Wilfred Hefman, solicitor, of Regina. He alleges all real and personal property of the union is the property of Sloan and Stokluk as its trustees.

Double header basketball game tonight (Wed.) at 7.30 in the Opera house Coleman. Blairmore vs. Coleman.

ARE YOU ONE?

There are a number of subscribers to whom statements have been sent. It might be pointed out that he who responds promptly saves us time and expense in again sending statements. It is therefore asked that those who have already received notice respond as early as possible. A newspaper requires money the same as the people who read it, and keeping a newspaper afloat in these trying times becomes increasingly difficult. This makes it the more imperative that subscribers help us by paying promptly. The cheerful subscriber who regularly pays in advance is a very welcome caller in a newspaper office.

THE COLDEST DAY

The majority are agreed that Thursday, Feb. 9 was the most bitter day experienced in thirty years. The temperature was higher by several degrees than the low record of 36 below the previous day, but the wind raging at from 20 to 40 miles per hour made even the latterst enter.

Men going to work around the bluff between the town and West Coleman state the wind felt like knives cutting into them. One husky gentleman who has never turned his back on a wintry blast acknowledged the wind was too much for him last week. He attempted to walk to the mine but was forced to turn back and put on additional clothing to withstand the stabs and slashes of the icy blast.

Not since Jan. 1929 has there been such a prolonged cold spell. 32 below was the record low of the winter, but this was not accompanied by the heavy wind such as experienced last week.

"AND A GOOD TIME WAS HAD BY ALL" ETC

Soldiers, sailors, tinkers, tailors and other, ploughboy, tough men and many other kinds were seen at the costume dance of the high school on Friday evening in the Knights of Pythias hall. And the girls, including the high school teachers--it is beyond the power of the reporter to describe the effect--demonstrated their ingenuity in dressing themselves in a manner "fit to kill." Even the principal laid it to dignity and appeared in costume. For the most effective costumes Ruth Morrison and J. D'Andrea were awarded prizes, and the funniest Dora Carmelo and Fred Bezanco. Mason's Orchestra played for the dance, following a short program by the pupils.

TOWN COUNCIL SAYS FAREWELL TO RETIRING MEMBERS

At the meeting held on Feb. 14th, J. M. Rushton, who has been a councillor for six or seven years, laid aside the responsibilities of office. Councillor Jackson's term also expired, and to take their places the newly-elected councillors, W. Chapman and Andrew Harry will be sworn in. W. Bore will resume his office, having been re-elected.

Very little business was before the meeting, it being mainly to clear up business of the old council and to pass a bylaw appointing James Ford assessor for the ensuing year.

LETHBRIDGE KINSMEN DEFEAT CANADIANS IN EXHIBITION GAME

Playing at Lethbridge on Saturday evening, the Kinsmen won by a score of 5-3. Joyce did not go down with the team, having sustained a bad knock in Friday's game with Macleod.

DEATH OF MRS. J. PLANTE'S FATHER IN SPOKANE--OLD TIMER.

One of Southern Alberta's Pioneers and Member of Old Northwest Mounted Police.

Living to the ripe old age of 84 years and enjoying good health up until comparatively recent days, Mr. John Johnstone passed away at the home of his son Harold in Spokane on Saturday, Feb. 18.

He lived here prior to moving to Spokane, and his wife was buried here about nine years ago. Members of the family living in addition to Mrs. Plante are his sons Harold, Spokane; Albert, Calgary; Wallace, Winnipeg; and another daughter, Mrs. Frank Fink, of Spokane.

Coming from near the city of Cork, Ireland, he lived for some time at Kingston and Toronto, and came west with the original draft of the Northwest Mounted Police, trekking up from the jumping off place on the railroad in North Dakota, as there was no railroad connection between eastern and western Canada at that time.

He was one of the early settlers of southwestern Alberta, and lived at Pincher and Macleod for some years, later moving to Coleman, where his wife died about nine years ago. He was a very interesting man, who conversed with, and could recount vividly early experiences of pioneer days of Western Canada.

The funeral was held at Coleman on Wednesday; a report will be in the next issue.

OLD SCHOOL BOARD'S CONCLUDING MEETING

On Thursday, Feb. 16th, the 1932 school board held its last meeting there being present J. M. Allan, F. Barringham, W. Antroub and R. Sudworth. Misses Barringham and Antroub were elected in 1931, and their terms expired this year. Of the old board, J. M. Allan was re-elected, and Sudworth has another year to complete his term.

The newly elected trustees will take their oath of office at the next meeting. Left-over business from previous meetings was completed, the meeting only taking a short time.

Slovak Society Planning Dance

Members of 1st Slovak Benefit Society announce a dance to be held in the Polka Hall on February 24 for which the well-known Aradians orchestra has been engaged. The public are cordially invited to attend. Couple 75c, extra lady 25c.

UNITED CHURCH NOTES

Sunday, Feb. 26 no singing service, the Junior choir will sing. Mr. Taba will preach on the subject "A Call to Courage."

The minister will commence a teachers' training class at 3 p.m. in the church. All teachers are urged to attend. The class will last 45 minutes.

Evening worship at 7 p.m., with the senior choir and solo selection by L. Harris. "The Things that are to be the subject of the sermon."

Rebekah Whist Drive

Feb. 14: A. Dastoud, W. Matland, Mrs. J. Richards and Mrs. M. White.
Feb. 15: J. V. Brown, W. G. Galt, Mrs. A. V. Brown, Mrs. M. McKay.
The regular Saturday night whist will be held following the routine to which the public are invited.

ANNOUNCEMENT

The Women's Guild of St. Alban's will hold a tea and party sale at the home of Mrs. Borden on Saturday, February 25th from 2 to 6 p.m.

ANNOUNCEMENT

P. M. Thompson of Blairmore announces that from Thursday, Feb. 23 till Feb. 30, a full count on M'n's. Women's and Children's Shoes will be given. This includes several new spring lines, and men's fine dress shoes in addition to work shoes and boots. See the special window display at Thompson's, Blairmore.

CANADIANS WIN MORGAN CUP ROUND BY EASY MARGIN

Coleman Canadians defeated Macleod in the Morgan Cup series by 4-2, making a total of 9-3 in Coleman favor on the round robin.

Jenkins opened the scoring for Coleman on an assist from Fraser a minute after play started. Dillingham on an assist from LeVasseur tied in 12 minutes; Joyce in 15 minutes scoring for Coleman.

Macleod scored the only goal of the third, making it 4-2. Allan Graham of Macleod rushed the boards and hurt his hip, being carried from the ice, and shortly after Jimmy Joyce crashed into Macleod's goal, and was assisted to the dressing room by a severe blow in the ribs. Dillingham of Macleod had a severe nose bleed, but was able to resume play.

Coleman penalties were Lyla, O'Leary, Johnson; Macleod, LaVasseur. Coleman: Kanick, Johnson, Kwasney, Lyla, Fraser, Jenkins, Kapalka, Joyce, O'Leary.

Macleod: McKay, Ringland, LeVasseur, Henderson, J. Graham, G. Graham, Dillingham, T. Graham. Referee, George Graham.

The hockey boys suggest that Bill Fraser should forfeit all the points he won as highest scorer and start again after scoring a goal for Macleod on Friday night. Bill's reply is that it takes a good player to score for his opponents. Now if it had happened in a game between Blairmore and Coleman--the rest is left to imagination.

Jim McMillan, familiarly known as McGilligan, a former mayor of Crow's Nest, was an interested observer of the elections on Feb. 13. Asked as to whom his successor is at the divisional point, he stated that Jim McCool was now the big chief. A familiar figure missed on election day was Michael Hennessy, who is living a few miles from town.

Candidates Express Their Appreciation

A. M. MORRISON EXPRESSES THANKS, ELECTION WORKERS

As president of Coleman Citizens' League, it is with considerable pleasure that I express the thanks of the executive to all who so willingly helped in returning a solid slate of candidates on the council and the school board.

It demonstrates in a very definite way that we have a loyal body of people who, when aroused, realize the importance of seeing that sane local administration is assured. It means work in organizing, and it may have meant discomfort for those who braved the bitterly cold weather of election day, but it was well rewarded in the splendid victory achieved.

I feel that the Citizens' League's responsibility does not rest with the winning of this election. There are yet grave problems which must be overcome, the distress of the unemployed must be relieved and we must do our best to remove the causes of discontent and unrest. I hope every one who signed the Citizens' League roll last summer will feel that he or she has a share of responsibility as a member to further assist in the ideals for which the League was organized.

Again thanking and congratulating all the workers on a victory which exceeded expectations, I am, Yours faithfully,

ALAN MORRISON,
Pres. Coleman Citizens' League.

J. M. ALLAN ACKNOWLEDGES SUPPORT

The vote accorded me in the election is very gratifying, especially after serving two years as chairman of the school trustees. I take this opportunity of publicly thanking all who in any way supported my re-election, and for the expression of confidence as demonstrated by the splendid majority accorded my candidature.

JAS. M. ALLAN.

ARTHUR REID THANKS ELECTORS

I wish to thank the people of Coleman School District for the splendid support given me in the recent elec-

Blairmore Radicals in Control--Very Close Vote Recorded

Radical Majorities on Council and the School Board as Result of Municipal Elections.

Knight in Mayor's Chair for Two Years--Wins by Majority of 23 Votes.

(Lethbridge Herald)

Blairmore, Feb. 15--The largest municipal vote ever held here took place Monday, when William Knight, Labor candidate, defeated Arthur Ferguson, local funeral director, for mayor. William Knight polling 403 as against 380 votes for Ferguson.

The following Labor candidates were successful as councillors: Joe Kroskowsky, local miner, 390; Joseph Aschach, coal miner, 389; Albert Olsen, engineer, 388. Defeated candidates of the Citizens were: William McElvey 370, P. C. Montalbetti, 376, David Oliver 378.

Successful candidates for school board: Alfred Bossett, Labor, 434; Robert Horne, Labor, 438; S. A. Bannan, Citizens, 433. Defeated candidates for school board were: J. E. O'Brien, B.A. Citizens, 426; J. A. McDonald, Citizens, 301; Sam Patterson, Labor, 429.

ANNOUNCEMENT

Dr. A. E. Shore, of Dr. Conn. Hackney & Shore, Calgary, will be at the office of Dr. R. F. Stewart, Blairmore, Feb. 23th, after 2.30 p.m. Anyone wishing to consult him in regard to eye, ear, nose or throat or to be fitted with glasses, please make appointment with Dr. Stewart.

ANNOUNCEMENT

Mr. Melville Anderson, of Anderson & McLean, night specialists, Calgary, announces his next visit to G. R. Powell's, Coleman, on

Tuesday, February 28 20 years' experience and regular visits assure you of satisfaction in all optical work.

Candidates Express Their Appreciation

tion for school trustees and especially for the way they backed the Citizens' League. It is an incentive to me to fulfill to the best of my ability my duties as trustee--ARTHUR REID.

CARD OF THANKS

As one of the successful candidates in the recent election, I wish to express my sincere appreciation and thanks to those who voted for me, and also to those who did such splendid work in getting out the vote.

To the members of the Citizens' League and Coleman Miners' Association and ratepayers at large, I again say "Thank you."

ANDREW HARRY.

THANKS TO ELECTORS

I desire to express my thanks and appreciation to the ratepayers who voted for me in the recent election, also to those who worked so diligently for the return of candidates on the slate of the Citizens' League and the Coleman Miners' Association. It is pleasing to note that by returning solid Citizens' slate to the school board, it will help greatly in carrying forward those policies for which the League stands.

Again thanking you, I am, Yours truly,

GEORGE HOPE.

FRANK BARRINGHAM THANKS ELECTORS

This is to thank the 507 who cast their ballots in my favor on election day. I consider this quite an honor, and goes to show my services for the past two years were appreciated.

In spite of the alarm sent out, those who do understand can see by the balance sheets a saving of over five thousand dollars, a lower mill rate, and better results during the past two years--two years of depression.

Hoping the new board will be equally or more successful, and wishing good luck to one of the best school districts in Alberta, I wish to remain, yours truly, Frank Barringham.

The C. G. I. T. groups will hold a tea on Saturday, March 11, in St. Paul's United Church club room.

Greatest Value at All Times

TEA

"Fresh from the Gardens"

The World Wheat Situation

The time is rapidly approaching when the farmers of Western Canada will once again be busily engaged in seeding their land. As they do so their thoughts naturally will speed forward and they will ponder on the possibilities of the harvest that will result from their seeding. But this year, probably to a greater extent than ever before, their thoughts will not dwell so much upon such aspects of the harvest as the number of bushels to the acre that may be threshed, or the grade that will be obtained,—important as these always are,—but, rather, upon the price that it may be possible for them to secure, that is, whether in the long run, they will reap a profit above the costs of production for their season's hard work.

In volume of production, the wheat growers of Western Canada had a good crop last year, nor was there much to complain about in the average grade secured. True, some sections of this vast prairie country again suffered from drought, but the area so affected was much smaller than in the preceding year. Nevertheless, disaster befell our wheat growers because the price obtainable for wheat reached the lowest point in hundreds of years,—far and away below the cost to the farmer of producing the wheat. And as seeding time approaches, there has been practically no betterment in price. The prevailing price is still less than it will cost the farmer to produce the wheat.

Like the weather, and so many other factors, the price of wheat is something beyond the power of the farmer to control. He is forced to accept the prevailing world price. Even the so-called six cents a bushel preference in the British market means little or nothing to him because he still must sell in that market at the prevailing world price. The so-called preference will not add a fraction of a cent to that price.

Under these circumstances, farmers,—and everybody else,—are interested in the world wheat situation, because it is that situation which will be the price-fixing and controlling factor. We propose, therefore, to present for the information of readers of this column, certain facts and figures compiled by Donald M. Marvin, Economist, for the Royal Bank of Canada, which were made public on February 1.

First. World shipments of wheat since August 1, 1932, were the smallest in ten years. Shipments to the Orient were relatively large, but other countries took only moderate amounts, and shipments to Europe were very light, as the result of the record crops harvested in many European countries last year. Notwithstanding this situation, Canada exported a large volume, supplying more than one-half of all the wheat shipped from all wheat exporting countries.

Second. The reason why Europe took only moderate quantities of wheat during the last half of 1932 is accounted for by the fact that bumper crops were harvested there in 1932, and new high records in wheat production were established in Germany, Italy, Spain, Portugal, Greece, Holland, Scandinavia and Czechoslovakia, while France produced 65,000,000 bushels more than in 1931. As a result Western Europe produced 180,000,000 bushels more than in the previous year. In order to dispose of these supplies, tariffs, quotas, and other restrictions on wheat imports were substantially increased. On the other hand, Russia and the Danubian countries had smaller crops and practically no wheat to export.

Third. In 1932, owing to unfavorable conditions, wheat production in the United States dropped 175,000,000 bushels compared with 1931, and was 250,000,000 bushels below the five-year average. But, while the U.S. thus raised only about sufficient for its own use, it still had a large carry-over from previous years. The Australian crop showed an increase of about 10,000,000 bushels, and Argentine an increase of practically the same amount.

Fourth. Canada's big crop last year, added to its carry-over from previous years, gave us total supplies for the period August 1, 1932, to July 31, 1933, of some 560 million bushels. Of this, 120 million bushels are required for domestic purposes, leaving 441 million bushels for export. Of this latter amount, 140 million bushels have already been shipped, thus leaving about 300 million bushels to ship before the end of July, or to be carried over. Broomhall, the British expert, estimates that another 180 million bushels will be exported by Canada, leaving a carry-over on August 1st next of around 120 million bushels, or from 15 to 20 million bushels less than a year ago.

Now, as to present and future prospects. The condition of the winter wheat crop in the United States was, on December 1st last, officially reported as the lowest since 1933. Australia is selling much of her wheat in the Orient. Wheat importing countries will, however, require about \$2 million bushels less in 1932-33 than was the case in 1931-32. European imports have been restricted in the first half of the present crop year in order to expedite the disposal of the domestic supplies created by the bumper crops already referred to. It is to be expected that Europe's demands will be much heavier between now and July 31st next.

On the other hand, the total surplus of wheat available for export is more than ample to meet all requirements. Supplies in the Southern Hemisphere are about the same as last year. Heavy stocks are still held in Canada and the U.S. Russia and the Danubian countries are, however, not in a position to export in the same volume as in previous years. Winter wheat crops have suffered in Europe as well as in the U.S. although it is too early to estimate the ultimate output.

The Civilized Savage

Two German airmen who arrived in an uninhabited part of North Australia and reached civilization not long ago, after great privations, were forced to abandon their plane. When they returned they found it intact, guarded by the natives brought up at a mission. Two days after the plane reached Melbourne it was stripped by souvenir hunters.

Radio is the only source of entertainment enjoyed by many light-housekeepers, I read. When they're not looking out they're listening in.

Pains Around Her Heart
Tired Out After Doing Housework

Mrs. Henry Ranch, Muriel Lake, Alta., writes:—"Last fall I had bad pains around my heart, and each morning after doing a little housework, I seemed to get dizzy and feel all tired out."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Western Fair Circuit

Attractions For Western Canada Exhibitions Are Of High Order
Secretary J. E. Rattle announced that contracts for attractions for the Western Canada circuit of exhibitions have been completed by the five fairs in the loop. While the exhibitions have been forced through the stress of economic times to reduce their expenditures for outdoor features, it is the belief of the officials that the line-up of 1933 will be on a par with other years.

The spectacular "Bird of Paradise" setting will be given each evening during fair week. It is sponsored by A. Thavin, one of the world's foremost musical directors. The director has been given a free hand to pick his talent from any western city, but will probably employ five or six musicians in each of the exhibition centres.

Other grandstand attractions will be the "Four Night Hawks," instrumental humorists, the "Seven Tip Tops," A. Rinley, and tumbling act; the "Nine Toyama Japs," in acrobatic stunting; Rita and Dunn, a high diving team; "Three American Clowns," and Master Eugene, the boy xylophonist.

People Giving More Time To Horticulture

Department At Ottawa Reports Increase In Correspondence

It would seem that less popular conditions encourage a more general love of home and beauty; for the Dominion Horticulturist at the Canadian Government Central Experimental Farm in Ottawa, recently stated that "Since the financial depression set in, a marked increase has been noted in the correspondence in regard to ornamental horticulture. People seem to have more time for work about the home and are trying more than in the past to make the surroundings attractive. The experience gained with the collections of plants under test, and methods of growing them, form the basis of the replies to many of these correspondents."

An infinite variety of shrubs and plants for home gardens are grown in Canada, most of which do not grow well in other countries because they are originated under climatic conditions that make them notably hardy.

Have Hypnotic Power

Apples Are Said To Hasten Ripening Of Bananas

Millions of bananas exported to Canada each year from the British West Indies may be ripened rapidly by placing a box of Canadian apples in the refrigerator in which the bananas are stored, according to Sir William Hardy, who delivered an address on the subject before the British Association of Refrigeration.

Air streams that have passed over the apples contain "subtle emanations" which profoundly influence other vegetable forms," Sir William declared. Only elderly apples have this hypnotic power. Potatoes, plant under the spell of apple proximity either do not sprout or merely put forth misshapen, wart-like growths, he said. On the other hand, an elderly apple tends to speed up the growth of a young apple.

Egypt's One Paper Mill

Located In Alexandria Produces Cardboard For Cigarette Boxes

There is but a single paper mill in Egypt. It is located in Alexandria and produces a cardboard for making cigarette boxes, for which there is a substantial demand in that country. It uses waste paper and rags obtained locally. Only forty-six tons of pulp for paper making were imported in 1931. There is a project on foot for the construction of a paper mill primarily intended to use raw local materials in the shape of certain kinds of vegetation, but for the production of the better grades of paper and newsprint it would appear necessary to use imported woodpulp.

No Use For It

Lady of the House: "Why don't you go to work? Don't you know that a rolling stone gathers no moss?"

Tramp: "Madam, not to evade your question at all, but merely to obtain information, may I ask of what practical utility is moss to a man in my condition?"

An American lady has married the third of three brothers after divorcing the other two. It's a remarkable compliment to her mother-in-law, at least.

Industrialization continues to lead in importance in South China.

Forecasts Revival Of The Timber Industry

B.C. Forester Believes Last Year Marked Low Ebb

"Stocks of logs in the water and lumber stocks in mill yards are now smaller than they have been at any time during the last three years, and any improvement in business conditions will mean immediate activity in logging and milling to fill orders," said a statement on the timber industry of this district by A. E. Parklow, district forester, at the annual meeting of the Prince Rupert chamber of commerce.

Yard stocks of poles which were large at the beginning of 1930 have been drawn on gradually for two years with little or no replenishment. Telephone, telegraph and power lines depreciate at the same rate, whether business is good or not, and the time is near when extensive repairs and replacements will be necessary if the lines are to be maintained. Similarly the railways, which had large stocks of these on hand at the end of 1929, have purchased very few since that time, and must soon order large replacements to make their lines clear. From even this angle there is reason to anticipate that 1932 marked the low ebb of the timber industry in this district and that 1933 should show at least a partial return to normal activity."

Puzzle For Pawnbroker

Wedding Dress Pawned Forty Years Ago Awaits Owner

What is to become of a wedding dress which has been in pawn 40 years, during which period the interest has piled up, is being discussed by pawnbrokers of London.

Suddenly the payments have ceased, and pawnbrokers have been unable to trace the owner. The shop where it first was pledged quit business many years ago, but the dress was transferred to another establishment, and the interest payments continued. It is now held by Robertson's Ltd. The woman who pawned it never returned to see it. The dress, once bright and fashionable with its trailing skirt of black, its green bodice stiffened with whalebone, and its green lace-trimmed sleeves, has grown old and faded, and now is unwanted.

Indoor Gardening

Interest These Days In Gardening On The Small Scale Catalogues

The season for indoor gardening is here! From now until the time when the seed catalogues arrive, countless Canadians will spend hour after hour pouring over the brilliantly illustrated pages of the seed catalogues, hunting for an early start and, tastefully, mentally, of the delights which come to judicious appetites with the appearance of the first fresh vegetables of the year.

Then, there is the fun of planning the flower plot, an important part of one and which is best undertaken at this season of the year well in advance of the time when home gardens can actually take to the yard with shovel, hoe, rake and trowel. Flower gardens, well planned ahead of planting season, usually present the most beautiful arrangement of colors, more orderly arrangement of plants, and a variety of plants and an assortment of varieties which bloom in succession so that the garden is never without flowers.

The annual catalogues of E. McKenzie Company, Ltd., whose headquarters are Brandon, has just been mailed out across the country to the prairie provinces. It contains all of the standard and reliable varieties which have been grown in Canada successfully in past seasons and, in addition, includes a large number of new varieties which, according to tests, are thoroughly adaptable to Canadian soil and climate and will add further variety to garden crops.

Included is a Sand Cherry, a juicy, blue fruit, used for pies, jams and preserves. The small tree, or bush, on which it grows is hardy and has been specially bred for adaptability to Canadian conditions.

This is the second year McKenna has been publishing a catalogue offering of Crested Wheat Grass, which is expected to solve, in large measure, the feed problem of western Canada, because of its hardness and its resistance to drought.

To inspire interest in the World's Great Exhibition and Conference, which is scheduled for Regina, July 24 to August 5, the Company announces in its catalogue two contests in which \$5,215 in cash prizes will be awarded for letters relating to the Exhibition, for predictions of total attendance, and so on.

for COLDS

Head Colds, Hot Muzzles, Sore Throats, Hoarseness, and all other colds. Real relief—quickly!

MILNARD'S
"KING OF PAIN"
PAIN EXPELLER

Get Rid of That SORE THROAT!

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Aspirin relieves neuralgia, neuritis, too. Use it freely; it does not hurt the heart.

ASPIRIN
TRADE-MARK REG. IN CANADA

Literary Tribute To Lady Nicotine

Poets and Prose Writers Express Mankind's Debt To Good Tobacco

Since the day when Sir John Hawkins, Ralph Lane, Governor of Virginia, Sir Francis Drake and Sir Walter Raleigh introduced and popularized smoking tobacco in England, tobacco has formed the inspiration of literary men and artists.

King James I., is said to have valued early objects to smoking, refusing to permit his mouth to be "used as a chimney," but despite his royal prejudices, smoking became popular in England and, indeed, throughout Europe. Poets, prose writers and philosophers from the sixteenth century on have extolled its beneficence and acknowledged the comforting solace of the "blessed weed."

In modern days among those who found a congenial theme in tobacco have been Sir James Barrie, the novelist and playwright, whose tender whimsicalities have made him a beloved figure in English letters where over English is spoken and read. "My Lady Nicotine" will remain a classic of its kind.

Rudyard Kipling, the Poet of Empire, creator of "Kim" and "Soldiers Three," devoted several famous verses to the cigar:

"Open the old cigar box,
"Give me a Cuba stout,
"For ways are running crossways,
"And Maggie and I are out.
"A million surplus Maggies
"Are willing to bear the yoke;
"And a woman is only a woman,
"But a good cigar is a smoke."

One of the most enthusiastic of modern eulogies on cigars comes from the mouth of a character in Thomas Mann's novel, "The Magic Mountain." "With a good cigar in his mouth a man is perfectly safe, nothing can touch him—literally." It's just like lying on the beach. When you lie on the beach, you don't require anything else in the line of work or amusement, either."

To Extend Invitation

Would Have Capt. Mollison and His Famous Wife Pay Visit To Canada

Canada
Capt. James Mollison, famous British long distance flyer, and his equally famous wife, the former Amy Johnson, may be invited to make a tour of Canada this summer.

The proposal, which emanates from a number of aviation leaders here, will be laid before the department of civil aviation at Ottawa, through which the official invitation would be extended.

The Mollisons are reported considering a trans-Atlantic flight, and it is urged that following this they make a tour of the Dominion, including a journey right one way with stops at all cities on the trans-Canada air mail route one way, and the return, a non-stop flight.

The electric motors of modern battleships have the energy of a million men.

More than 15,000,000 tons of products were shipped from Argentina in the first 10 months of 1932.

Maybe women have less imagination than men, but they know what they want when they want it.

Patronizes Canadian Firm

Montreal Furrier Makes Cape For King Of Abyssinia

Solomon, on all his wisdom hardly conceived the possibility of his descendants buying their regal garments in Canada. But Haile Selassie, Emperor of Abyssinia, King of Kings, Lion of Judah, and reputed direct descendant of King Solomon, has trusted the shaping of a new fur cape to a Montreal craftsman.

The order was placed by the emperor's agents, the Bank of Ethiopia in Addis Ababa. In order that the monarch's cape might be correct in all details, a sample garment was shipped to Montreal. It was made of black cloth, faced with red velvet. It was about seven yards in width.

The cape was made and designed by a Montreal firm of furriers and executed at a cost of \$1,200. It was made of Alaska seal trimmed with ermine and lined with black cashmere. The facings were trimmed with black satin.

Devise Artificial Heart

Remarkable Results Have Been Reported By Moscow Doctors

It is reported from Moscow that two doctors of the Institute for Blood Transfusion, have devised an "artificial heart" with which very remarkable results have been achieved in operations on dogs. With its help they succeeded in restoring the symptoms of life to the complete organs of a dog. The surgeon then carried out a series of operations on the hearts of living dogs with the help of the "artificial heart," the real heart being put out of action for four and a half minutes. The success was such, it is reported, that it is now possible to hope that similar operations on the human heart for diseases now considered incurable may become possible.

Lester, a tragedy by William Dunlap in 1794, was the first American tragedy played. It is also called "False Deception."

OFF COLOUR?
HOW IS YOUR LIVER?

Wake up your Liver Bile
—Without Calomel

Your liver's a very small organ, but it does the most important and delicate work of the body. It filters out of your blood all the poisons and impurities that enter your system. If your liver is not working properly, you will feel tired, nervous, and generally unwell. You won't completely correct such a condition by taking salts, oil, mineral water, laxative pills or chewing gum, or roughage. When they've moved your bowels they're through—and you need a liver stimulant.

Carter's Little Liver Pills will soon bring back the sunshine into your life. They're purely vegetable. Safe. Sure. Ask for them by name. Refuse substitutes. 25c at all druggists.

W. N. U. 1982

Foreign Demand For Canadian Wheat Helps To Steady Market

Winnipeg, Man.—Practically at a standstill for many weeks, foreign demand for Canadian wheat suddenly burst into life last week, large shipments being booked for continental Europe and the United Kingdom. Two cargoes also were sold to the Orient.

The Winnipeg grain market reflected this activity in the export field, futures prices advanced buoyantly and finished the week more than one cent higher. This price gain was recovered despite a one-cent "break" on Wednesday when weakness engendered by closing of Michigan banks sent prices temporarily lower.

May delivery closed the six-day period, Friday, at 48½, July at 49½, and October at 50½, an all-around upswing of 1¼ to 1½ cents.

Large export sales were made on each of the past four days, bringing the week's total to approximately 3,000,000 bushels. Most of this was sold from Vancouver.

Often regarded as Australia's territory, China purchased a little of Canada's wheat when the Alberta wheat pool sold two cargoes for delivery at Shanghai. Inquiries from Russia for seed wheat were said to be on hand at Vancouver, but no actual sales were confirmed.

War Splits Countries

Colombia Has Broken Off Diplomatic Relations With Peru

Bogota, Colombia.—Colombia acted to break off diplomatic relations with Peru as a result of the beginning of open warfare in the long threatening fight for possession of Leticia, upper Amazon gateway to the Atlantic Ocean.

The Colombian foreign office handed passports to the personnel of the Peruvian legation here.

(In diplomatic usage the arbitrary handing of passports to diplomats of a foreign nation means the breaking off of diplomatic relations.)

Lima, Peru.—Peruvian military forces claim to be still holding their positions in the disputed Leticia territory after the first clash with a Colombian flotilla that came 2,000 miles up the Amazon river to reassert control over the area.

Migration Course Turns

More People Going From Dominions To United Kingdom

London, Eng.—The course of empire migration has turned. For the first time in history, more people are now entering the United Kingdom from the Dominions than are emigrating from the United Kingdom to the Dominions.

Figures submitted in the House of Commons by J. R. Thomas, secretary for the Dominions, show an inward balance for the nine months ending September 30, 1932, of 26,034, made up as follows:

Canada, with Newfoundland, 17,644.
Australia, 3,847.
New Zealand, 1,641.
South Africa, 2,902.

Ends Long Fight

Buenos Aires, Arg.—James A. McIlison has reached here from Rio de Janeiro, completing the first fight from England to Argentina in seven flying days.

Britain Sees No Immediate Prospect For Ending Unemployment

London, Eng.—Neville Chamberlain, Chancellor of the Exchequer, told the House of Commons that reduction of unemployment to comparatively small figures could not be anticipated within the next 10 years.

The Chancellor was replying to a motion of censure against the government put forward by George Lansbury, veteran Labor leader, on the ground the administration had failed to deal with the unemployment. The motion was defeated by 414 votes to 49.

Mr. Lansbury suggested unemployment could be remedied if goods were produced for the "use of mankind" and not for private profit.

Mr. Chamberlain maintained the

Trading Vessel's Crew Perished In Northland

Bishop Tells Story Of Suffering In Bitter Cold

Dutch Harbor, Alaska.—Bishop Antonia Pokrovsky, formerly of Vancouver, was rescued February 14 by the Bureau of Fisheries ship "Penguin," and told a pitiful story of how 12 persons on the shipwrecked trading vessel "Unnuk Native" died by freezing and drowning.

The distinguished Alaskan prelate of the Russian Orthodox Church was found by natives February 13, seriously frostbitten and suffering from lung exposure after the shipwreck, January 24, and the following day the "Penguin," with a doctor, reached the bishop, who is more than 70 years old.

Only three others of the 16 aboard the "Unnuk Native" survived and they struggled to a village after days of suffering and hunger.

The ecclesiastic said he was the last man to leave the ship, making shore attire only in a sweater.

Picking up other garments washed ashore, he dressed himself and made bandages for his frozen feet. He ate oranges that floated in from the vessel, he said, until he became unable even to fish for the fruit.

The others reached shore almost naked, without food or water. Separated and without shelter, the captain and the crew died at various points on the rocky shore.

Canada's Third Best Market

Exports To Holland Totalled \$16,907,597 During 1932

Ottawa, Ont.—Apart from the United Kingdom and the United States, Canada's best market in 1932 was the Netherlands. Exports to Holland totalled \$16,907,597, compared with \$13,572,765 in 1931 and \$10,843,449 in 1930. Agricultural and vegetable products made up the bulk of the exports, the bureau of statistics reports.

Another European country to which there is a growing export is Belgium. It is the next important market to that of Holland. Last year exports to Belgium totalled in value \$14,948,482 compared with \$14,387,271 in 1931, and \$15,175,982 in 1930. Although in 1930 the value was greater than in 1932, the volume last year was much larger, prices being considerably lower than they were then.

A Long Sleep

Chicago Woman Has Slumbered For More Than Year

Chicago.—Three hundred and sixty-five days and nights without a known moment of consciousness, 27-year-old Patricia Maguire has slumbered—a puzzle to physicians.

Just a year ago, a doctor was called by an anxious Oak Park family. They could not arouse Patricia, suffering from sleeping sickness.

All doctors have been able to do has been to keep up her physical strength by forced feedings of nourishing liquids. The procedure will be, it was said, continued nursing—and watchful, playful waiting.

House Discusses Court Immunity For Indians

Suggested Changes To Indian Act Arouse Storm Of Disapproval

Ottawa, Ont.—The House of Commons spent two hours discussing the official words of the Indians. When Hon. T. G. Murphy, Minister of the Interior, introduced a bill to appoint Royal Canadian Mounted Police constables as Indian treaty officers and make other changes to the Indian Act, he aroused a storm of disapproval and opened a wide discussion.

The broad subject of the legal responsibility of Indians was introduced by several members, who claimed it was illegal for a red man to be immune from court action when operating an automobile on the highway.

A. W. Neil, (Ind., Comox-Alberni) asserted he knew of a case in which a white man had been run down by an Indian. Because the Indian was a ward of the government, the injured man could get no redress. Also, as the Indian received no punishment, he would feel at liberty to go out and do the same thing to other white men.

Mr. Murphy said an Indian using the highway was subject to provincial law, and the authorities could refuse him a license if it was found he was causing persons injury.

Opposition to the blanket appointment of officers of the Royal Canadian Mounted Police as treaty officers was so strong that that particular clause was allowed to stand over.

Plea For Veregin

Doukhobors Ask Ottawa To Show Leniency To Leader

Brilliant, B.C.—"The Union of Youths of Community Doukhobors" today delivered a three-barred protest to Canadian authorities against pending deportation of Peter Veregin, H. monarch of the Canada's 15,000 Doukhobors, as Veregin waited at Halifax for the next hearing of his case before Mr. Justice Humphrey Meilish.

The Doukhobor youths, all Canadian-born, sent one message to Prime Minister R. B. Bennett that ended: "Be lenient, otherwise our welfare will lie upon your conscience."

Hon. Wesley A. Gordon, Minister of Immigration, was petitioned to stop Veregin's deportation and Mr. Justice Meilish was informed in a third telegram: "The fate of Peter Veregin is linked with the fate of 15,000 people and every harsh treatment given him is reflecting upon us all. If Peter Veregin is deported it will be great injustice."

Japan's Withdrawal From League Is Anticipated

Has Ceased Negotiations With Geneva In Manchurian Dispute

Tokyo, Japan.—Japan has served notice it has ceased negotiations with the League of Nations in the Manchurian dispute, but its anticipated withdrawal from League membership was not expected for about a month.

The Tokyo Stock Exchange was closed and those of Osaka and Mito also were shut down, owing to a severe slump in prices, caused by indications of increasing anti-Japanese sentiment at Geneva.

It was learned on high authority the government feels withdrawal from the league would be the turning point in the empire's history.

New Air Mail Service

Ottawa, Ont.—Inauguration of a regular air mail service between Big River, Sask., and Ile a la Crosse, Sask., by way of Green Lake and Beauval was announced today by the post office department. The service will start operation on or about March 16.

"EXPLORATIVE" DELEGATE

It is understood that the British Government proposes to send to the United States this month an expert "explorative" delegation to confer with the United States authorities on War Debts. Sir N. F. Warren Fisher, above, will probably be included in the delegation.

Railway Measure

Senate Approves Bill Implementing Recommendations Of Duff Commission

Ottawa, Ont.—The special senate committee approved the government bill implementing recommendations of the Duff royal commission on railways. The bill must be considered by the senate as a whole and then by the House of Commons.

An amendment, designed to provide for an equitable distribution of work among the employees of the C.N.R. and the C.P.R. in cases where one railway secures an excess of traffic due to abandonment of any section of line by the other, was approved by the committee. This was strongly urged recently by Hon. James Murelock as a measure of justice to the employees.

An amendment today was accepted temporarily, on the understanding it may be further amended on the third reading of the bill in the senate. This excludes from the operation of the bill the mining, land and ocean services of the C.P.R.

"It is understood," said Mr. Meighen, "the measure includes such services as are co-relative and competitive with the C.N.R."

Mr. Finliff had desired to make the definition include those services to which the bill would apply. Mr. Meighen's point was that the measure should exclude those services.

Doping Race Horses

Call Attention To The Matter In Alberta Legislature

Edmonton, Alberta.—Doping of horses at race courses in this province will have the effect of killing the sport, warned J. J. Bowen, Liberal, Calgary, when addressing the legislature in the debate on the speech from the throne.

The investigations made by government inspectors showed that there had been drugging of race horses at Victoria Park, in Calgary, and in Edmonton, said the speaker. He hoped some government action would be taken to curb the practice.

Speaking of the proposed banter with Russia, Mr. Bowen said private capital might be induced to give the necessary guarantee if no arrangement could be made with the Federal Government.

Acquired

Long Beach, California.—William James Guy, youthful Welsh adventurer, was acquitted on a charge of murder in the slaying of Capt. Walter Wanderwell aboard the yacht "Carm" last December 5.

League Of Nations Censures Japan's Military Action Against China

Geneva, Switzerland.—The League of Nations told the whole world by its own wireless telegraph of the plan of its leaders for a pronouncement of solemn censure upon Japan for her military action against China, and for a peaceful settlement of the conflict in the Far East.

Yosuke Matsuoka, special consul for Japan, announced less than an hour after publication of the League's pronouncement that his government would not accept the recommendation for peace.

"There never was any question of Japan's accepting the report," he said. "To protect Manchukuo we must possess the chief town of Jehol. The only way to get peace is for the Chinese to withdraw their troops from Jehol."

"We will fight if we have to. I have heard that there are about 150,000 Chinese troops in Jehol, but one Japanese is worth 10 Chinese. All Chinese soldiers are bandits."

Mr. Matsuoka avoided questions concerning Japan's apparently assured plans for withdrawal from the

league, saying he had received no instructions to withdraw. "Nobody in the league wants Japan to leave," he said, "and Japan does not want to leave, but if the league creates certain circumstances, the league may compel Japan to leave."

The conquest of the province of Jehol, which lies between Manchuria and China proper, is the next item on Japan's announced military schedule.

Chinese spokesmen accepted the league's settlement proposals as violation of their nation's policy. But difficulty developed with the Soviet Russian representative, who indicated his government had little faith in the new plan for a settlement of the conflict which has disturbed the Far East almost a year and a half.

The settlement plan, drawn up by the representatives of the 19 principal league powers, is embodied in a report which will be presented to the league assembly next week with every prospect of the full approval of all members and governments except Tokyo.

Cumbersome Procedure

Says Board Of Directors Could Accomplish More Than Legislators

Ottawa, Ont.—Parliamentary efficiency experts cast a critical eye over the House of Commons and agreed its procedure was cumbersome and expensive but in a three-hour discussion could not agree on a solution.

An ordinary board of directors would accomplish more in three weeks than parliament accomplished in three months exclaimed Peter McGibbon (Con., Muskoka), when introducing a resolution to establish a committee to consider overhauling parliament customs.

Indian Trust Fund

Ottawa, Ont.—In five provinces of Canada the Indian trust fund has been greatly augmented since 1920, according to an answer given in the House of Commons today by Hon. T. G. Murphy, Minister of the Interior. The largest increase is in Alberta where the trust fund in 1920 stood at \$1,641,524. It is now \$3,036,009. Saskatchewan decreased from \$1,947,862 to \$1,780,401.

May Visit States

Ramsay MacDonald Would Confer With Mr. Roosevelt

London, Eng.—A movement for Prime Minister Ramsay MacDonald to reach Washington about March 15 for important personal talks with Mr. Roosevelt on the broad lines of the whole future of Anglo-American policy in the field of international affairs gained strength today.

It was expected a decision on his personal mission will be reached soon after Sir Ronald Lindsay, ambassador to the United States, reaches Washington, and that it will be largely dependent upon whether Mr. Roosevelt desires Mr. MacDonald to make the trip.

U.S To Take Action

Washington.—Reversing its previous action following the effort to assassinate President-elect Roosevelt, the United States House of Representatives judiciary committee favorably reported the Mallick bill for heavy penalties on those who advocate overthrow of the government by force or resistance to federal state officials.

Ottawa Decides Against Lifting Of Ban On Liquor Exports To U. S.

Ottawa, Ont.—While the United States senate was adopting a resolution to repeal the 18th amendment, the Canadian House of Commons decided against lifting the export ban on liquor shipments to the United States.

Premier R. B. Bennett and R. Hon. W. L. Mackenzie King, leaders of the Conservative and Liberals, united in opposing a bill sponsored by Col. S. C. Robinson (Cons., Essex West) to repeal the 1930 legislation which outlawed liquor exports to dry countries.

The bill was defeated 100 to 44, the members for the most part voting regardless of party affiliation. Two cabinet ministers voted for the bill. They were Hon. R. J. Manion, Minister of Railways, and Hon. Arthur Saupe, postmaster-general. Of the 44 supporting the bill, 22 were Conserva-

tives, 19 Liberals, two Labor and one Independent.

It was a principle of international law, to say nothing of international goodwill and neighborliness, said Premier Bennett, that no country should provide an opportunity for its own citizens to break the laws of another. The United States was still a dry country. Liquor still was considered contraband, and for Canada to legalize exports to that country would be a breach of international friendship.

The 1930 customs prohibition, the Prime Minister said, would not apply every liquor shipment to the United States the day that country repealed the 18th amendment.

The ban would not apply because the United States then would not be classed as a dry country.

Removal of the export ban was urged on several grounds—because Canada was losing millions of dollars of revenue, because it would provide employment for Canadians and would permit liquor shipments to leave openly for the United States, not through St. Pierre, Miquelon and other backdoor routes.

Repeal of the export ban, said Mr. King, would place the government of Canada in the position of "knowingly and openly aiding and abetting smugglers in the violation of the laws of a friendly and neighboring country." It would encourage run-running along the Canadian frontier, making Windsor and other border points a base for criminal operations, and "if we are reduced in this country to a position where we can get our revenue and provide employment only by becoming partners in the run-running business, things have come to a strange pass."

BRITAIN'S NEW SUBMARINE COMMENCES SEA TRIALS

Here we see the "Sturgeon," latest addition to the British Navy, gliding out of Gillingham Harbor for the commencement of her sea trials. She is the result of some of the best brains in the Service, and is expected to put up a good show for speed and diving reliability.

NOTES AND COMMENTS

A defeated candidate takes the Journal to task. He stated we did not give him a "fair break" in the election campaign. Reference to the pre-election issues of this paper fails to disclose that any candidate was given a break. An appeal was made in the manifesto issued by the Citizens League executive to support candidates nominated by the League and Coleman Miners Association. Merits or otherwise of individual candidates was expressly avoided, for we give credit to every individual the fact that he is doing the best he can to serve humanity. But we do differ with the methods by which these individuals seek to improve society.

A feature of the campaign was the absence of any attempts at coercion or intimidation, so prevalent here during the strike period of last year. Public opinion has sufficiently awakened to hold in check anything of that nature, and the town emerges with a much clearer atmosphere after the recent contest to determine who is to control local administration of public affairs. Roughly eighty per cent of the population favored the policy of the Citizens League, which must have received the co-operation of Coleman Miners Association. The vote clearly indicates it, for mine workers vote predominate in any local election contest.

The Journal interprets the result as a decisive check to the activities and influence of those emissaries whose sole mission has been to profit on the distress of the unemployed. With such a small following here, and decreasing support in their mischievous and revolutionary propaganda, they must admit that the zenith of their power had fallen into eclipse. With sane administration, a proper consideration for the rights of the unemployed and earnest endeavor to remedy their distress, it is highly improbable that the disciples of Sovietism will hold even the scant following they now have in Coleman.

In Blairmore the result was the reverse to that of Coleman. Apparently the citizens' organization was not as effective as that of the radicals, and there has been much heart-searching to find why plans miscarried. Citizens' candidates' supporters anticipated an easy victory, based on their close scrutiny of the voters' lists. On the other hand, the "reds" were so confident of success they announced a "victory" dance in advance of the results being declared. There are various factors which contributed to Blairmore's failure to elect Ferguson and the Citizens' candidates. Against the determined efforts of Knight and the organization backing his candidature, there has been a lack of aggressiveness such as displayed by the radical partisans. It has been evident throughout the past year. Business expediency has been the brake to aggressive action, with adverse results. To outsiders, the "back-up" of the Citizens League in Blairmore was looked on as a sign of weakness.

Knight and his henchmen will now have ample opportunity to demonstrate how far they can progress in fulfilling all the "demands" of the radicals. He will not be able to blame "opposition" on the council if he fails to bring about all the remedies demanded, for he has a majority. Doubtless the responsibilities of office will impress on him the folly of making promises of a radical nature, and he will take refuge under the statutes and ordinances which govern local administration. His administration will be observed with interest. If he can bring about the great benefits which all desire, but which are difficult to obtain, then he will indeed be "some mayor".

The ratepayers have spoken with definite voice on who shall represent them. But the problem remains of relieving unemployment. This can be met to some extent by finding or planning useful work. It is a responsibility which must be dealt with as effectively as possible.

The best way to win and hold business is by strict attention to every detail, by the building of good-will and by keeping the public informed of your store through judicious advertising in The Journal. It is taken home and read, not thrown on the post office floor as are so many of the

posters which pass through the mails. \$100 spent throughout the year in your local newspaper will give far greater advertising value than any other medium of advertising.

**A "TAG PARTY"—AND A
CHOP SUEY SUPPER**

Recently we enjoyed being one of a "tag" party. After spending most of the evening playing bridge, with a little vocal music on the side, and the odd drink to help the singing along, shortly before midnight we deemed it the propitious time to bid adieu to the host and make tracks for home. "But wait a minute or two," he exclaimed, "we're going to eat!" There being nobody around to prepare the eats, caused us to wonder who would attend to this part of the evening's entertainment. Mere man might manage a few hot dog sandwiches and a loughan or two, which go down pretty good late at night, but when it comes to putting on a spread then it is we find the ladies indispensable. However, the supper appeared. An enormous dish of chop suey, prepared by experts in the art from the local restaurant, with its accompanying "bug sauce", (at least that's the name we heard it given) was brought in with almost as much eclat as the bringing in of the Haggis. And boy, what a feed.

Being a curious turn of mind, we decided to delve further into the mysteries of chop suey. Many have heard of it, but comparatively few know little of what it is made. They know it tastes good, and that's all. Consequently we secured a little information from Joe at Coleman Cafe. Chop suey does not belong to the common short order class of items on the bill of fare—it requires to be treated with dignity and you must give notice 24 hours in advance or even more if you want real chop suey; moreover, you must order for a party of several people. No single orders like a rasher and two fried. No sir, it stands out from the common herd of daily items on the menu, which even the most fancy names cannot approach. From what we gathered from Joe, chop suey 'that is the original chop suey' is a distinctly Chinese dish, and to make it you must possess the secret formula which has been handed down from even before the time of Confucius. The formula is as closely guarded as the password of a third degree Masonic lodge, consequently Joe did not let us in on the secrets and mysteries of ancient and celebrated chop suey. However, we learned some things about it that we never knew before, and might never have known had we not been at the stag party and our host displayed his ability in entertaining by regaling us with that which so aroused our interest and curiosity that it enabled us to grind out a few hundred words on the typewriter to record in the local news.

Novelty and variety is the spice of life, and a chop suey supper is, after all, decidedly a change, especially when you least expect it. We really felt

that its appearance should have been greeted much more auspiciously after hearing from Joe a little of its secrets, mysteries and traditions. There should have been an address similar to that given to "The Haggis".

Reading the proceedings of the provincial legislature in the daily news, one Mr. Howden takes up the time of the house extolling the virtues of horse racing, and the evils of doping horses. Possibly we shall read next of some member discussing tombs and adenoids, and teaching of babies. A long-suffering people pays for all this talk in legislatures and parliaments.

The Blairmore correspondent to the Lethbridge Herald states, in reporting the municipal election: "The loss suffered by the Citizens party can partly be attributed to the lack of combined support and the failure to come before the people and outline their platform."

To win elections, there must be leadership and a well defined policy.

People require something to rally around and something definite to vote for.

Population Of World Shows A Steady Increase According To The League Of Nations

The Statistical Department of the League of Nations has been counting noses, and gives the figure of the world's population, at the end of 1931, at about two billion twelve million eight hundred thousand.

More than half of these people live in Asia. In fact, it is the most populous continent, having an excess of some 252 million inhabitants over all the other continents combined. Asia also has the most rapid increase in population in comparison with other parts of the world.

Europe, for the first time in history, has more than half a billion people. On the first of January, 1932, the figure representing its population was greater than 506 millions. The figure for the same date, 1931, was 498 millions.

The North and South American continents were inhabited by some 252 millions of persons at the end of 1931—an increase of four millions over the year previous.

The vast continent of Africa counts scarcely 142 millions of inhabitants. And interesting to note, this figure, for 1931, is two million less than for 1930. This is the only decrease recorded by any of the continents.

Australia, the remaining continent, supported but ten millions of people at the end of 1931.

Some of the statistics given for the major countries of Europe are interesting: Russia, 127 millions in 1931 against 124 millions in 1930; Germany, 64 million, with no great advance in growth; Great Britain, 40 millions, no increase; France, 42 millions, an increase of 640,000 over 1930; Italy, 41 millions, a decrease of 400,000; Poland, 32 millions, an increase of a million; Spain, 24 millions, an increase of a million.

The world's population is increasing. That fact is one that has ramifying implications, and if the growth continues at the present rate, within less than half a century it will be one of the most pressing problems that will have to be dealt with.

Fertilizing Pasture Lands

Best Results Obtained When Continuous Grazing Is Practised

Pasture land fertilized at the rate of 475 pounds per acre of a complete fertilizer was able to carry 2.35 cows to the acre when continuous grazing was practised. The same kind of land similarly fertilized but grazed rotationally was able to carry only 1.7 cows to the acre, and the same kind of land unfertilized and continuously grazed carried 1.40 cows to the acre. These results were obtained by the Dominion Department of Agriculture at the Experimental Farm, Nappan, N.S. In practice the number of cows varied from week to week according to the condition of growth, and by careful calculation dependable results were obtained. In addition to the pasture the cows received a grain ration at a rate consistent with the amount of milk given. The field used in this experiment had been in use as pasture for most of the twenty-five years it had been in use.

The results of this experiment go to show a saving of 1.1 pounds of meal per cow per day on the fertilized rotationally grazed area and 1.96 pounds on the fertilized continuously grazed area, as compared with the unfertilized area.

Losing Their Manners

Conversation In Some Homes Impossible Since Radio Arrived

Has the radio developed a people with declining manners? It used to be considered the height of ill breeding, in the good old days, for anyone in the room to interrupt a conversation between guest and host, but those days are gone forever in radio homes, where it is very common for some one thoughtlessly or by design, to turn on the radio, and get a leather-lunged announcer bellowing balley-hoo, or a singer screaming the latest jazz song to the utter disruption of conversation on any subject. And it would be insulting the whole family if one made an observation on this utter lack of good manners.

"You only married me because my aunt left me some money." Nothing of the kind, I'd have married you regardless of who had left it to you."

Glasgow, Scotland, plans to provide recreational and educational facilities for its unemployed.

W. N. U. 1932

Toy Bank Sales Increase

Those That Refuse To Open Were Among Best Sellers

The depression has brought millions of coins out of the sock and into the Tom Thumb savings bank.

More than four and a half million toy coin depositories were sold in the United States in 1932, a 70 per cent. increase over 1931, according to a survey of the American toy industry.

Banks that refuse to release deposits until five or ten dollars accumulate led in popularity last year. The vogue for saving inspired many new designs, including banks that register five different kinds of coins and hold as much as \$75. Fancy chromium plated banks gave a fashion note to this.

Banks with combinations like safes and banks that combined cash registers and attachments were favored by children for playing stores. But the adult resolution to save is credited with the popularity of banks that refuse to open.

The manufacturers of toy banks estimate that nine out of ten are broken into after two years. So the industry counts on a large replacement business in spite of lifetime guarantees against all mishaps except forcible entry.

By Ruth Rogers

A YOUTHFUL MODEL THAT'S ADORABLY SMART AND WEARABLE TOO

Very simple is this smart day dress. Yet it is exceedingly well balanced and slimming, which makes it suited to the average full figure as well as youth.

And it is such a delightful little dress to slip into for general day occasions.

Dark blue crinkly wool crepe made the original. The collar is white rough crepe silk. The bone buttons and leather belt are coral-red.

Printed or plain crinkly crepe silk and angora woolen weaves are splendid mediums for this model.

It can also be made with long sleeves.

Style No. 515 is designed for sizes 14, 16, 18, 20 years, 36 and 38 inches bust.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Size Of Ranch Flocks

Income Received Is Affected By Number Of Breeding Ewes

The number of breeding ewes per ranch is an outstanding factor affecting the income received by range sheepmen in Alberta and Saskatchewan, according to an economic survey of the range sheep industry conducted during the past three years by the Agricultural Economics Branch and Experimental Farms Branch of the Federal Department of Agriculture. In analyzing the relation of size of business to income the records of 87 ranches were grouped according to the number of breeding ewes per ranch: 11 ranches had under 500 breeding ewes; 25 between 500 and 1,000; 18 between 1,000 and 1,499; 17 between 1,500 and 1,999; 5 between 2,000 and 2,499; 4 between 2,500 and 2,999; and 7 ranches had over 3,000 breeding ewes. Ranchers who had less than 500 breeding ewes obtained an average ranch income of \$441, whereas those who had between 1,500 and 2,000 breeding ewes had about the right balance between the number of ewes, amount of range, labor and equipment per ranch.

A Discriminating Buyer

British Consumer Is Most Particular When Purchasing Poultry

When studying the poultry trade in the British market Mr. W. A. Brown for the Dominion Department of Agriculture, learned that the British consumer is a discriminating buyer. Mr. Brown concludes from his observations and interviews with market men that five essential points have to be observed in the building up of a satisfactory trade in the British market: (1) High standard of quality; (2) Absolute uniformity in grading; (3) Proper weights with a minimum of tolerance; (4) Attractive display, including both packages and individual birds; (5) Delicacy of quality and flavour that is pleasing to the consumer.

"Young man, my daughter says you're planning to elope with her, and I want to give you fair warning."

"Well, sir, what is it?"

"That ladder of mine out in the garage is cracked!"

An alarm clock that makes tea before rousing its possessor has been patented in England.

EX-KING'S EXILED COUSIN RELATES EXPERIENCES

Don Alfonso de Bourbon, Marquis de Squilache and cousin of the ex-king of Spain, is shown (left), relating to a journalist the experiences which he and twenty-eight monarchist prisoners suffered after escaping from the Spanish penal settlement of Villa Cisneros in West Africa. These monarchist leaders travelled across the Atlantic from Africa to Portugal in a thirty-ton vessel and suffered many privations in the 1,000-mile trip.

THE NEW MISSIONARY

Cost Of Operating And Maintaining Port Of Churchill Will Always Be Very Moderate

No Latchkey Needed

Always a Door-Man At Number Ten Downing Street

However late the hour, Premier Ramsay MacDonald and members of his family never have to worry about being locked out of their London home.

For No. 10 Downing St., home of England's premiers and the most famous house in London, is claimed to be the only private residence in the capital to which no one needs a latchkey.

Thanks to David Lloyd George, war-time premier, "10 Downing" has a door attendant night and day, and there is always a doorman on duty, however small the hour.

When Lloyd George came into power and took up residence at Downing St., there was a little wooden knob, hardly perceptible, on the door near the knocker, and by pulling the knob a string inside attached to it raised the latch, and the caller entered.

This simple village method did not appeal to Lloyd George, especially in war-time, and instructions were given for the door to be manned night and day.

Up to the first year of the war it would have been possible for any stranger to have pulled the latch and entered the premier's residence, but nowadays every visitor is carefully scrutinized and asked his business before being permitted to enter even one of the ante-rooms.

The Chicken Of Today

The Old Hen Ain't What She Used To Be

The old hen "ain't what she used to be," Professor J. C. Graham, head of the poultry department of the Massachusetts State College, said recently.

The chicken of today is forced into early maturity and is kept operating at a speed which would have killed her 1800 ancestor. In the old days a chicken was born and a few days later she was out in the yard tugging at worms. Now many of the incubator-hatched chicks never get out of a building until their laying days are over.

Back a few years ago the ordinary hen started laying at eight to 10 months, but now the poultry man has hastened things along so that he expects them to be laying at five to seven months.

A Promising Trade

Great Britain Offers Market For Canadian Cattle Feeds

According to the United Kingdom Trade Commissioner, a promising trade in cattle feeds is in prospect in the British market. In the January 21st issue of the Commercial Intelligence Journal it is stated that the importation of cattle feeds, consisting of bran and other flour milling offal, from Canada is comparatively new, beginning in 1931 when Canadian shipments rose from practically nil to 22,263 long tons (2,240 lbs.). Of this amount, 6,000 tons were shorts and middlings, and the remainder bran. According to this report Great Britain imports about 300,000 tons of these products annually, chiefly from foreign countries. Empire countries producing only some 78,000 tons in 1932.

Smallest New Testaments

One Used In Australia For Swearing-In Witnesses

The two smallest New Testaments in the world are believed to be in Australia. One belongs to Major Jones, chief of the Commonwealth Investigation Branch. It is less than three-quarters of an inch long and half an inch wide, and is used for swearing-in witnesses.

The other Testament has been presented to the Commonwealth National Library by Mr. Hubert Hiss, of Essex, England. Its measurements are: length, three-quarters of an inch; width, five-eighths of an inch; thickness, a quarter of an inch.

White Bread Forbidden

White bread will be forbidden, until next harvest, to soldiers, policemen and boarders in schools and colleges in Rumania. Instead, they will receive rye bread and a kind of stiff porridge made of maize.

One liner carried 10,000 bags of Christmas mail from Britain to America in December.

Owing to natural breakwaters the cost of operating and maintaining the port of Churchill will always be moderate whether the trade be heavy or light. D. W. McLachlan, engineer-in-charge of the Hudson Bay terminals, told the Engineering Institute of Canada at the concluding session of its annual meeting at Ottawa.

Natural breakwaters or jetties at the entrance to Churchill harbor, he explained, direct the tidal currents so that they perform a perpetual service by their scouring action in keeping the harbor from filling up. There are no wide tidal flats or currents to deal with.

The expenditure to date chargeable to the Churchill development amounts to about \$13,372,886, stated Mr. McLachlan. With work still to be done the cost on completion will be about \$13,800,000. The net cost, according to Mr. McLachlan, would scale down to \$12,500,000 if the dredging plant can be sold for half its original cost and if allowance is made for an amount of \$825,000 incurred through taking over plant formerly charged to the works at Port Nelson.

The further work required to complete the initial developments at Churchill, Mr. McLachlan said consists of one season's dredging with one dredger; an additional season's work in connection with covering the water supply pipe; a small amount of work connected with water supply intake; extension of elevator tracks; and some further sheathing of the face of the deep water dock.

The water supply of Churchill was one of the unique features of the development. Provision of water for locomotives, ships and camp in general was a difficult matter as there were no creeks of any size. The plan adopted was to excavate a reservoir at Grassy Slough, three and a half miles from the docks, having a capacity of 37,000,000 gallons. A pumping station and tank were provided and a 10-inch pipe line carries the water across the country to another tank within the townsite of Churchill.

Ruling On Cattle Export

Puts Canadian Exporters On Equal Footing With Competitor

The United Kingdom agreement, as now ratified, puts Canadian cattle exporters on an equal footing with her competitors in the British market, for the first time in thirty-seven years. The segregation of store cattle from fat cattle moving on export is no longer required. Fat and store cattle are allowed to move freely to inland points, with the understanding that female cattle must be of a quality and type satisfactory to the British Ministry of Agriculture. Check branding is no longer required; the period of isolation has been reduced to one clear day; and a veterinary officer is no longer required to accompany the cattle on the ocean voyage. These concessions by the British Ministry of Agriculture are part of a bi-lateral agreement arrived at by the respective governments at the Imperial Economic Conference, and under which Canada recognizes the London Quarantine Station, according to conditions laid down in the agreement—Department of Agriculture.

A Powerful Engine

Practically Runs Itself and Replenishes Its Boiler Fire

The Super-Mountain, declared to be the most powerful railway engine in the world, has just been completed at the works of the French State Railways in Sotteville-Rouen. It will develop 2,800 horsepower. The engine practically runs itself, nearly all control being automatic. It even replenishes its boiler fire with requisite amounts of coal when necessary.

The Largest Organ

The latest organ in the world is in a cathedral in Liverpool, England. The instrument has five rows of keys, 222 draw knobs, 168 stops and 10,384 pipes. It is played by electro-pneumatic action, the mechanism being driven by motors with a total of 35 horsepower.

"You crossed a carrier pigeon with a parrot?"

"Yes, so that if the bird lost its way it could inquire."—Gasset's Illustration (Vesale).

Canada's two largest lakes, wholly within Canadian territory are Great Bear Lake and Great Slave Lake, of which the first is the larger.

1211 people voted at the election of school trustees on Feb. 13 and 408 for councillors.

Mrs. J. Emmerson was a recent visitor with Mrs. Chas. Graham at Lacombe.

Mrs. J. L. Parker of Lee Lake was the guest of Mrs. H. C. McBurney for several days.

Showing at the Palace theatre, Wed., Thurs. and Fri., "Forbidden" starting Sat., "70,000 Witnesses"

Mr. and Mrs. T. M. Brown of Spring Point, were the guests of Mr. and Mrs. T. Holstead on Tuesday.

Mrs. Roy Taylor left for Lethbridge on Monday where she represented the W. M. S. of Coleman at the Presbyterial held at Knox church, Feb. 21 and 22.

Joe Petrusiak was admitted to hospital last week with a broken leg, caused through an accident in the International mine.

Mrs. Austin Gillis and two children, of Merritt, B.C., are here on a visit with Mrs. Gillis' mother, Mrs. C. F. Dunlop.

The local relief committee met on Wednesday, Feb. 15, in the council chamber, when about a dozen new applications for relief were received.

V. A. Bowes, assistant district passenger agent, C.P.R., Calgary, called on a number of the business men in town on Tuesday of last week.

Theodore Prowski, 2 years and 9 months old child of Mr. and Mrs. Alex. Prowski, of East Coleman, died last week from spinal meningitis, and was buried on Friday, Feb. 10.

Lieut.-Col. R. F. Barnes was elected a vice-president of the Canadian Artillery Association at a meeting held in Ottawa on Feb. 13. Lieut.-Col. Geo. A. Drew of Toronto was elected president of the association.

Mr. Lorne E. Campbell, president of McGillivray Creek Coal & Coke Co. Ltd., was a visitor here last Thursday on his return from a business trip to eastern cities. He left later for Rossland, B.C.

The Adanac Club held a very enjoyable dance in the Oddfellows hall on Feb. 10. The cold weather cut down the attendance. It is intended to put on a big dance next month in the Grand Union Hotel.

Assistant Commissioner Newsome, R.C.M.P., of Edmonton, and Inspector A. Duncan, of Lethbridge, were in the P. S. towns on Thursday last on official visits to the detachments and interviewed a number of citizens in the various towns.

The annual meeting of Coleman Caledonian Society will be held in the Knights of Pythias hall on Friday, Feb. 24th at 7.30 p.m. All members are urged to attend, when the reports of the year's activities will be submitted.—J. Park, secretary.

The toy soldiers donated by Mr. J. W. Gresham of Blairmore to the Crow's Nest Pass Scouts were won by Lethbridge gentleman named Sullivan. About \$33 was advanced to the funds as a result of the sale of tickets for the draw, and Mrs. Gresham's kindness is appreciated.

It is reported that Mr. Berovoy has retired from the partnership of the Crow's Nest Cleaners & Dryers, Fernie, and the business will be carried on by Mr. Schelmenko, who with Mr. Berovoy founded the business nearly four years ago. Mr. Berovoy was an enterprising and energetic young man and he will doubtless find plenty of scope for his energy and ability.

Pete Fontana, who left here in 1930 to take over the management of the Frontenac hotel at Big Valley, was burned quite seriously when a gasoline torch he was working with exploded. The report states he tried to use the fire extinguisher but the burning gasoline covered his clothes, and seriously burned his arms, chest and face. The fire was extinguished with little serious damage to property.

Sun Life Assurance Company of Canada

INCORPORATED 1865

HEAD OFFICE MONTREAL

THE inherent strength of life assurance has been tested and proved during the past three years of general business recession, and the invaluable service it renders the public in times of emergency fully demonstrated.

THE Sun Life of Canada, during this period—probably the most trying in human experience—has maintained its record of progress, and has been of especial service to its great body of policyholders throughout the world.

ITS assurances in force have increased since 1929 by \$465,000,000; assets by \$43,000,000. Its policyholders now number nearly a million.

STATEMENT for 1932

TOTAL ASSURANCES IN FORCE, December 31, 1932	\$2,928,952,000
This large amount, the accumulating estates of nearly a million Sun Life policyholders, will become payable to them or their dependants during this generation—a stabilizing factor of great social and economic value.	
NEW ASSURANCES PAID FOR	284,098,000
TOTAL INCOME	161,407,000
TOTAL DISBURSEMENTS	148,026,000
EXCESS OF INCOME OVER DISBURSEMENTS	13,381,000
PAYMENTS TO POLICYHOLDERS AND BENEFICIARIES:	
During the year 1932	108,527,000
Since Organization	702,712,000
ASSETS	
Bonds: government, municipal, public utility and others; stocks: preferred and common; loans on mortgages; real estate; loans on Company policies; cash in banks, and other assets.	611,436,000
LIABILITIES	
Almost nine-tenths of this sum represents the policy reserve—the amount set aside to guarantee all policy payments as they become due.	597,241,000
PAID-UP CAPITAL (\$2,000,000) and balance at credit of shareholders' account	\$3,416,000
RESERVE for depreciation in mortgages and real estate	4,781,000
SURPLUS	5,998,000
	\$14,195,000

The valuation of assets has been made on the basis prescribed for all companies by the Insurance Department of the Dominion of Canada. Policy reserves have been valued by the full net level premium method, on bases more exacting than those required by the Insurance Act of the Dominion of Canada.

Applications for new assurances were received by the Company during 1932 at an average rate of more than \$1,000,000 for every working day.
During 1932 the Company paid to policyholders and beneficiaries more than \$360,000 for every working day.
Income from renewal premiums was the largest ever received by the Company in a single year.

Cash in repayment or reduction of policy loans exceeded in amount that of any previous year.
Revivals of lapsed policies were in excess of those of any previous year, with one exception.
The net amount of policy proceeds left with the Company at interest was substantially increased.
